Carol Ann Doucette

#### ***Database Assistant***

Diane Burnell

#### ***Water Quality / Dam***

Bruce Micucci

#### ***Event Coordinator***

Deb Gellerson /

Ginger Heart

#### ***Road Association Networking***

Sue Marean

### **MARK YOUR CALENDARS TODAY!**

#### ***Annual Meeting – July 14th at Aimhi Lodge on the Lake***

Socializing, 9:30-10:00 am. Meeting runs from 10:00 to noon sharp. A host of information items will be discussed regarding all that affects our lake. Join us to view the milfoil video presented at this year's Milfoil Summit and a delegate speaking about boater safety. Visit the website for the complete agenda finalized in May.

### *Message From The President* *Pam Wilkinson*

My message this summer is to ask everyone to please focus on all the articles and envision where you might fit in to assist with the mission to protect our precious lake. Read the articles twice and know that the now twelve board members need your involvement. Sustainability is a real concern as many members have been involved for over a decade or so and it is time to mentor new members who will carry the torch. We all care very much about the mechanics of lake protection and there is a concern that if we do not encourage others to be part of the team, burn out could be approaching. A

special thanks to the all board members and countless others who have become part of the protection process with their undying dedication throughout the years. Each member generously offers their specialty and it is great to be involved with such a dedicated group who dives in when anything needs to be done. May your summer be filled with lots of relaxing moments putting your face to the sun and smiling.

*Thanks  
Pam*

## Sustainability

*Pam Wilkinson*

Sustainability is based on a simple principle: Everything that we need for the lakes continued survival and well-being depends, either directly or indirectly, on our natural environment and those who protect it. Sustainability creates and maintains the conditions under which humans and nature can exist in productive harmony. That coincides with fulfilling the goals and mission of Little Sebago Lake Association and the residents of the lake: protect, restore and improve our lake's water quality and fragile ecosystem. In order to have sustainability there is a critical need to refresh those who have dedicated not only one or two years but decades to this cause with other stewards. In order to maintain the mission there is a need to refresh this pool of people with others who can continue the charge but also bring to the table new concepts and ideas. We are reaching out to the lake community to become more involved, we are willing to nurture and provide guidance during the learning curve.

# VOLUNTEERS NEEDED

## WE NEED YOU! - HOW CAN YOU HELP?

There are a multitude of tasks that the Board provides; some are not fulfilled simply because there are not enough people. We welcome you to become a board member and join our monthly meetings or pick a task that has a particular interest. We have designated people beyond the board members who assist when the task is needed.

Call: **207-809-4706** or email: **[info@littlesebagolake.com](mailto:info@littlesebagolake.com)** to ask any questions or apply for anyone of these positions. We thank you ahead of time for your consideration!

**Board Member Positions:** 3 Openings. We welcome you to attend a meeting and check out the dynamic and diverse group. Eventually you will see what your interests are and become a part of the management of our lake!

**Water Quality Monitor:** Likes to cruise up and down the lake early in the morning. Dissolved oxygen and water clarity testing starts in May, requires every two week testing until September and you do not need to be a scientist. Training will be provided.

**Assistant Treasurer:** Assistant to work with present treasurer.

**Plant Patrol Coordinator:** Attend the Invasive Aquatic Plant Training Wed 6/27/12 at Sebago Lake State Park and organize others to become involved to know the difference between natural and invasive plants.

FMI: **[www.mainevolunteerlakemonitors.org](http://www.mainevolunteerlakemonitors.org)**

**Website Assistant:** Work with present website person to keep it fresh and current.

**Merchandise:** Someone to manage and reorder merchandise and propose new ideas for fund-raising. We also need someone at the annual meeting to sell the items. Training available; call us for more information.

**PR/Social Media:** Assist with reaching out to local media to keep public informed of activities. Post newsworthy events on FaceBook, Website and the Forum.

**Grant Writer:** Assist with grant writing. Work with milfoil coordinator who will provide information for grant application, interim report and final report to Department of Environmental Protection.

**Courtesy Boat Inspector Coordinator:** Arrange scheduling for milfoil boat inspecting.

### **VLMP-Volunteer Lake Monitoring Program**

Help with our plant patrolling efforts by attending the informational seminars scheduled in June. Learn the difference between the invasive Variable Milfoil's and the native look-a-like plant Water Marigold. Then join Little Sebago's vigilance to keep the plant from spreading by becoming a scout in front of your own shoreline. Mark your calendars!

- Wed. 6/27 - day-long training (Manual Control I) at Sebago Lake State Park
- Sat. 6/30 – half-day DASH training (Manual Control II) on Little Sebago Lake

Contact Roberta Hill 207-783-7733, [roberta@mainevlmp.org](mailto:roberta@mainevlmp.org), [www.MaineVolunteerLakeMonitors.org](http://www.MaineVolunteerLakeMonitors.org)

# Milfoil Status & 2012 Season Removal Plans

Pam Wilkinson

## Little Sebago Lake yearly comparison of milfoil bags removed and associated cost

|  | Upper Basin:<br>Gray | Twin Brooks:<br>Gray | Beaver Cove:<br>Gray | Mumford Cove:<br>Gray | Lower Basin:<br>Windham | Bags Removed | Cost       | Volunteers | Totals     |
|---|----------------------|----------------------|----------------------|-----------------------|-------------------------|--------------|------------|------------|------------|
| 2007  | 271                  | 55                   | 91                   | 133                   | 710                     | 1260         | 67,296.36  | 9,255.00   | 76,551.36  |
| 2008  | 215                  | 62                   | 63                   | 97                    | 1332                    | 1769         | 55,651.90  | 9,260.00   | 64,911.90  |
| 2009  | 390                  | 58                   | 9                    | 296                   | 967                     | 1720         | 51,580.26  | 13,786.00  | 65,366.26  |
| 2010  | 241                  | 54                   | 2                    | 47                    | 1491                    | 1835         | 67,265.60  | 17,046.42  | 84,312.02  |
| 2011  | 182                  | 17                   | 7                    | 16                    | 500                     | 722          | 48,350.18  | 12,466.32  | 60,816.50  |
| Totals Per Area   | 1299                 | 246                  | 172                  | 589                   | 5000                    | 7306         | 290,144.30 | 61,813.74  | 351,958.04 |

Each bag approx. 20#dry x 7306 bags=14612 lbs=7.3 tons removed from the lake in five years. Without the removal the plant, it would have multiplied and spread to other areas rendering some spots unusable for humans who use the lake and the ecosystem that supports the wildlife and fish.

It will be interesting this year to see what impacts there are from a low lake level due to no snow melt or spring precipitation. Normally when the lake is low it allows the sunlight to reach areas on the bottom that do not permit vegetation growth. We will monitor this carefully. We begin prepping for the year in May getting the HIPPO's ready in time enough to provide air tests for the divers prior to commencing their activities in July. In June we plan on a comprehensive vegetation survey to assess the milfoil beds prior to beginning our extraction in July. Our program will run until the end of September. This program relies mostly on the generous support of the lake community and countless volunteers. We thank you for your generous donations above the dues so this program can continue. Below is a summary of the last five years activities.

The milfoil committee welcomes you to contact us at any time with any questions you may have. Keep an eagle eye out for milfoil, know how to identify it, keep the natural vegetation in the water to discourage

the invasive plant from growing in your area. We are hopeful to get to a stage in the lower basin similar to the upper basin where in the past two years we only have needed to re-groom the milfoil beds one week every month. Getting to this stage will reduce the financial demands on all lake residents, reduce the volunteer time needed and preserve our investment allowing us to wake up in the morning and have more time to enjoy the lake.

## Public Boat Launch

Jan Smith

Jackie and Jimmy Fitzgerald will be returning for another season as our Courtesy Boat Inspectors. They both attended the Courtesy Boat Inspector Training which was held on March 2 in conjunction with the Annual Maine Milfoil Summit. Although they are experienced Inspectors, it is beneficial to have an occasional refresher and an opportunity to connect with others involved in similar programs. In addition to inspections, Jimmy and Jackie keep the Public Boat Launch in good shape, handout informational brochures and sell LSLA promotional items.

## Maine Milfoil Summit

*Pam Wilkinson*

Maine Milfoil Summit: Each year in early spring a Milfoil Summit is held as a kick off for the year. It is an opportunity to meet State and agency representatives as well as share experiences with area lake members who are battling the war on milfoil.

This year the focus was SUSTAINABILITY; must be this year's buzz word.

To get the true essence of the meeting view the video available on our website [www.littlesebagolake.com](http://www.littlesebagolake.com). Basically the State is concerned with the longevity of the milfoil programs

that are mostly supported with countless volunteer hours and funded mostly by the lake association's efforts. The milfoil dollars received from the milfoil sticker are being challenged by the percentage received by the Department of Inland and Fisheries and the State sweeping the funds for other purposes. Our boat inspectors Jim and Jackie Fitzgerald attended the mandatory annual Courtesy Boat Inspector Training. New training booklets were provided.

## *I Remember When...*

*Please share one of your special moments on the lake. In the past we have had some great stories which included a bit of history and some mischief! Please write, email or if you just want to talk about it you can call us and we will be happy to put it in print form for others to enjoy in our newsletters and web site. Give us your piece of history on Little Sebago Lake.*

*We would love to hear from you!*

[memories@littlesebagolake.com](mailto:memories@littlesebagolake.com)

## **Lower Narrows Reclamation**

*Tim Greer*

We got another permit (good for two years) to continue reclaiming the sand from the lower narrows and putting it back on Dr. Davies beach. This year (just like previous years) a lot of the sand we dredged, filtered back into the lake settling in the narrows. Our plan is to start the reclamation project in late

May or early June to have the narrows fully open with enough depth to keep our boat motors from dragging in sand. Our sand dredge (recently renamed to the Sand Piper) did a great job for us last year so we expect it will perform equally well this season.

# LSLA Endowment Fund

*"It is every man's obligation to put back into the world  
at least the equivalent of what he takes out of it."*

*Albert Einstein*

In 2010, the Little Sebago Lake Association established an endowment fund. The endowment fund was created, and accounts were set up to help provide for the long term health and protection of Little Sebago Lake. We have had five members contribute to our endowment fund to date. A plaque was made to acknowledge these contributions and is pictured on our website – click on the endowment tab at [littlesebagolake.com](http://littlesebagolake.com). We plan on displaying this plaque at both Gray and Windham town halls.

Donations to the endowment provide an annuity that benefit Little Sebago Lake for a long time. Contributions to the endowment should be over and above the Association dues. People frequently think of making a contribution to an endowment when they complete long-term financial planning or estate planning. Sometimes referred to as planned giving, an individual may decide that as part of their estate that they will bequeath a portion of their assets to an endowment. A typical example of this is leaving money to your college or university.

Gifts allow lake residents or those who find the lake a special place to leave a lasting legacy. Your gifts will be set in a special interest bearing account separate from the operating account. Only the interest will be used for specified projects. Eventually this will be another way to have sustainable financial resources. Please make this a consideration during your financial planning. If you have any interest in making a donation to the Little Sebago Lake Endowment Fund, please contact us at: **207-809-4706** or go to: [www.littlesebagolake.com](http://www.littlesebagolake.com) for more information. One of our board members, John Mullaney or Tom Torre will be happy to assist you. They are very knowledgeable on this matter.

**Committee Representatives**

*John Mullaney and Tom Torre*

# Road Associations Contacts

*Diane Burnell*

My name is Diane Burnell and I maintain the Little Sebago Lake Association membership database. I am hoping you can help us.

We keep a database so that we can mail our biannual newsletter brimming with information that all lake dwellers should know. It's also a means to remind people of our ongoing need for financial support. We consider everyone who lives on the lake or has a right to the lake a potential member of the LSLA, but we would love to have more dues paying members. Our annual dues are only \$25.00. We are amazed (and disappointed) that there are over 1100 households lining the shores of our beautiful lake and approximately 550 families pay dues.

We are looking to update the contacts for all road associations around the lake. The purpose is to be able to update your association with information that may be useful at your annual meetings. We would like to keep our data base current as well with any changes of ownership on your road. This would help manage our data base so our newsletters can be received properly. Please contact Diane Burnell by going to our website **[www.littlesegagolake.com](http://www.littlesegagolake.com)** in the contact section.

**Thanks for your help,  
*Diane***

Moss (native)

# HOPKINS DAM REPORT

*Bruce Micucci*

Normal winter?

As I write this report on April 13, 2012 I am reminded that on the same date one year ago Little Sebago Lake was still ice covered, the lake had already risen to 8 inch's above our summer level, and we still had 8 inch's plus of snow on the ground. The official "Ice Out" date for this year was March 23, 2012, over 4 weeks ahead of last year!

The Dam on Little Sebago Lake was closed 3 weeks ahead of the April 15th scheduled date because of the lack of rain or snow. We are on this date still down 12 inch's in level with no signs of a change in the weather pattern. The low water mark for 2012 is the current reading of 288.1 or -13".

The dam is in good structural condition, all the granite is in place and no movement

or cracks in the mortar can be detected. The oak seals on the spillway floor and bottom of the draw are about 75% determinate and will be replaced, hopefully this year. Finding a contractor to do the work is an issue, the actual cost of material is very minor compared to the labor of building a coffer dam in February when the water level is at its lowest. I hope to have cost estimate in time for the July 14th Aimhi meeting.

The Emergency Action Plan was submitted and accepted last year; it has a two year life so no action planned for this year. The dam committee will meet in July to fulfill the state EAP review requirements.

## WATER QUALITY REPORT

*Bruce Micucci*

The VLMP/DEP report on the water quality of Little Sebago Lake has not been published to date. Because of the extremes of weather we have experienced over the past year I am honestly not sure what our data collected in 2011 means. I will have the report within the next few weeks and will post it on our web site as well as reporting the findings at the July 14th Aimhi membership meeting.

### Attention!!!

We are always looking for donated items that can be used for our silent auction, and future raffles. If you think that you are able to help out with this, please contact any of our committee members.

## Safety Patrol Program

*Sharon Lamontagne*

The Safety Patrol boat is getting prepped, stocked and ready for another busy season on the lake. Cumberland County Deputies will once again be on board for approximately 8 afternoons to keep us all on our toes. They will be enforcing all of the state boating rules and regulations to keep us all safe. The other goal of the patrol boat this summer will be promoting the Lake Association. It will be stocked with newsletters, merchandise, lake maps and other items. I hope to have it out more often this summer with volunteer drivers along with their families. What a better way to spend a summer evening than out on the lake enjoying the sunset and at the same time doing a little public relations for the Lake Association?

## Little Sebago Lake Fish Stocking Reports 2002 - 2011

### Spring 2002:

18 Brown Trout 22" – 24"  
22 Rainbow Trout 14" – 16"

### Fall 2002:

1500 Brown Trout 12" – 14"  
150 Rainbow Trout 12" – 14"  
30 Brown Trout 22" – 24"

### Fall 2003:

1500 Brown Trout 12" – 14"  
150 Rainbow Trout 14" – 16"  
10 Brown Trout 22" – 24"

### Fall 2004:

1200 Brown Trout 12" – 14"  
150 Rainbow Trout 14" – 16"  
75 Brown Trout 18" – 20"

### Fall 2005:

1500 Brown Trout 10" – 12"  
500 Rainbow Trout 12" – 14"

### Fall 2006:

1500 Brown Trout 12" – 14"  
700 Rainbow Trout 6" – 8"

### Fall 2007:

1500 Brown Trout 12"

### Fall 2008:

1000 Brown Trout 13"  
700 Rainbow Trout 14"

### Fall 2009:

1000 Brown Trout 12"  
700 Rainbow Trout 14"

### Fall 2010:

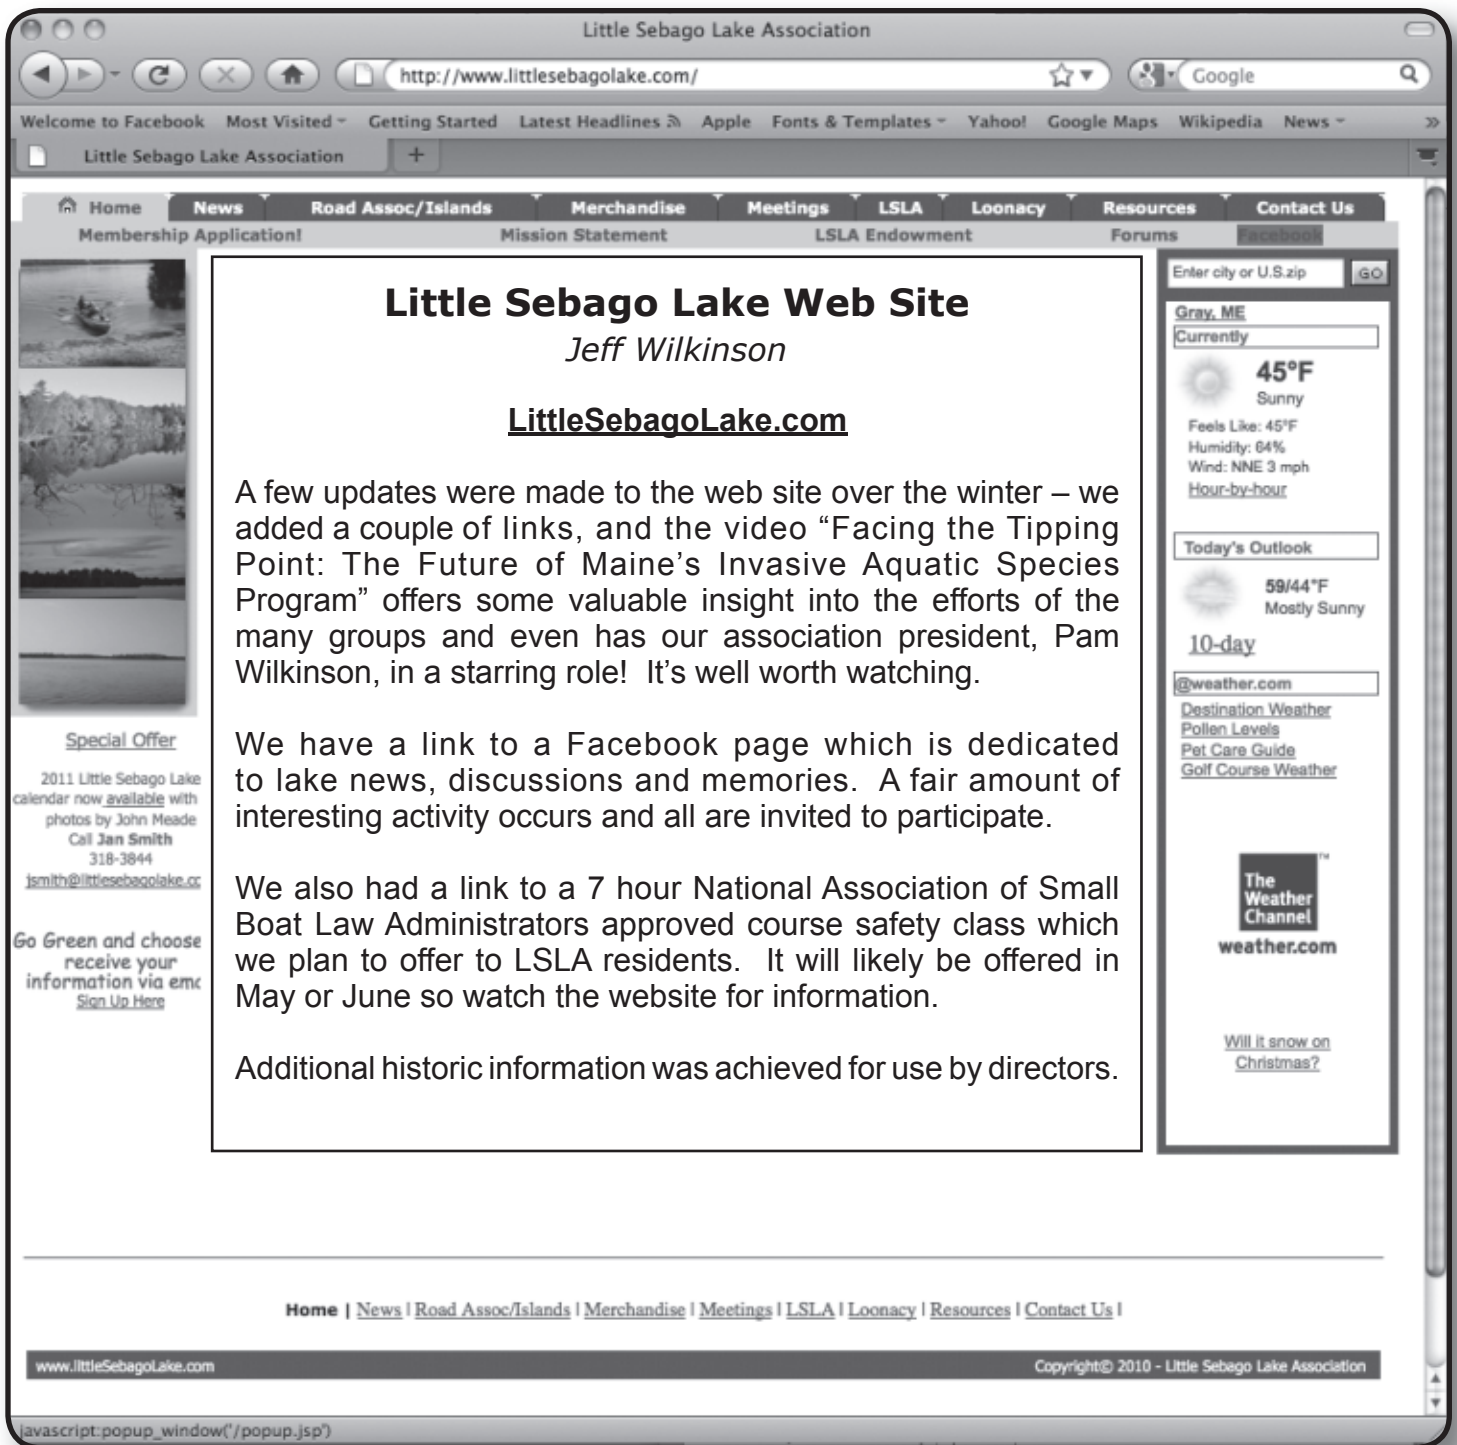

1000 Brown Trout 14"  
700 Rainbow Trout 14"

### Fall 2011:

700 Brown Trout 14"

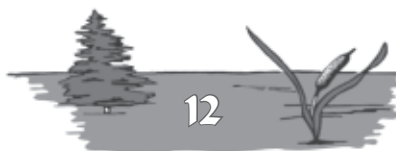

## Membership Address Updates

Please contact Diane Burnell via email at [dburnell@littlesebagolake.com](mailto:dburnell@littlesebagolake.com) with corrections to address.

STATE OF  
**MAINE**  
Department of Inland  
Fisheries and Wildlife

## **ME INLAND FISHERIES & WILDLIFE AND** **LITTLE SEBAGO LAKE** **ASSOCIATION**

**ARE PRESENTING A BOATING SAFETY COURSE**

*{THIS IS A NASBLA  
(NATIONAL ASSOCIATION OF SMALL BOAT LAW ADMINISTRATORS)  
APPROVED COURSE}*

This course is going to be presented this spring. It is a 7 hour class and the date, time and place will be determined soon. It will likely be a Sunday in May or June. Please refer to our website for more information as it becomes available.

Interested persons should contact Sharon Lamontagne at:  
*[slamontagne@littlesebagolake.net](mailto:slamontagne@littlesebagolake.net)*

Students 10-12 must be accompanied by a parent or guardian during the full program.

*Maximum capacity: 40 students*

**Authorized instructors are donating their time to**  
**the cause of greater outdoor safety.**

*If special accommodations are required due to disability, please contact me no later than 1 week prior to program date.*

The Dept. of Inland Fisheries & Wildlife programs and activities are operated free from discrimination in regard to race, color, national origin, sex, age or disability.

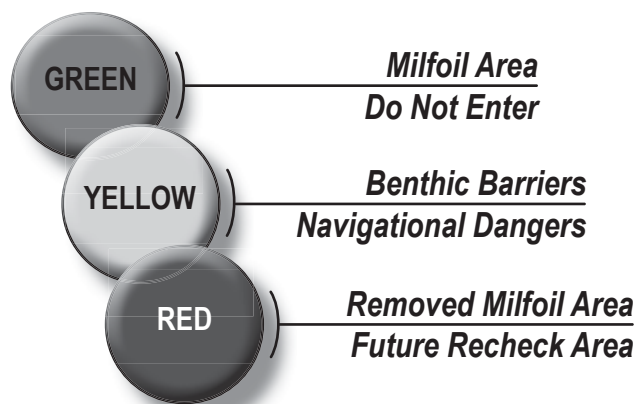

# Milfoil Militia

**Help us watch for milfoil  
in Little Sebago Lake  
and keep the natural  
vegetation in it's place  
to discourage  
milfoil growth.**

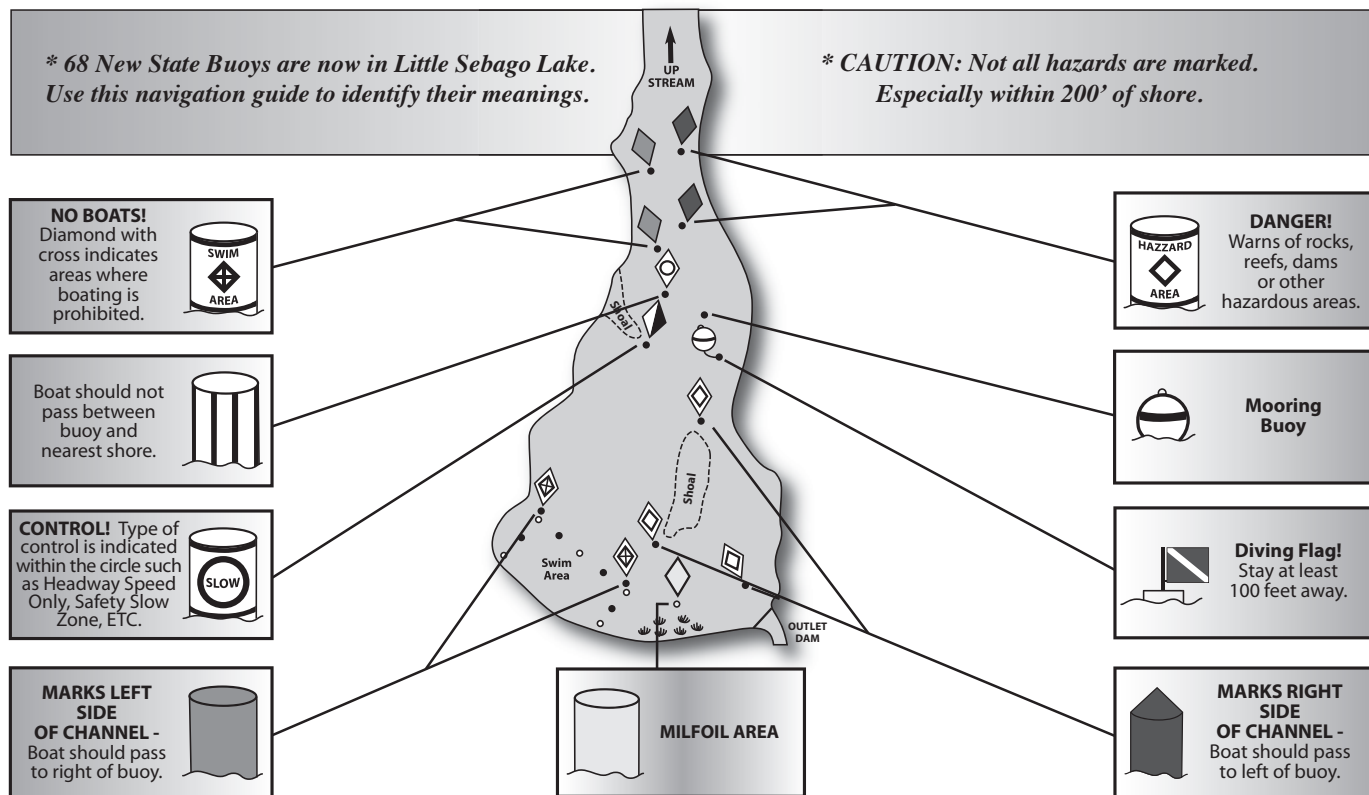

*For any questions or to report milfoil sightings  
in your area, call Pam Wilkinson (LSLA)  
at: 428-3732, or email her at:  
[pwilkinson@littlesebagolake.com](mailto:pwilkinson@littlesebagolake.com)*

**Stop Sign "Polk-A-Dot" Campaign  
Noodle Markers ~ What do they mean?**

## Maine Aides to Navigation System

*For boating safety...learn to recognize these aides to navigation*

*For more information or Questions Call  
Rod Bernier (LSLA) at: 809-4706 or Email him at: [rbernier@littlesebagolake.com](mailto:rbernier@littlesebagolake.com)*

# *Display your decal with Pride!*

*All of you should have recently received your LSLA Membership Decal along with your annual dues letter. The decal should be located on the exterior of your boat, anywhere above the water line. This will identify you as paid active member of the Little Sebago Lake Association. This decal will also help you to identify other members as well. We are looking forward to seeing you out there on the lake with your decal this summer!*

## **Please support our organization by sending in your dues!**

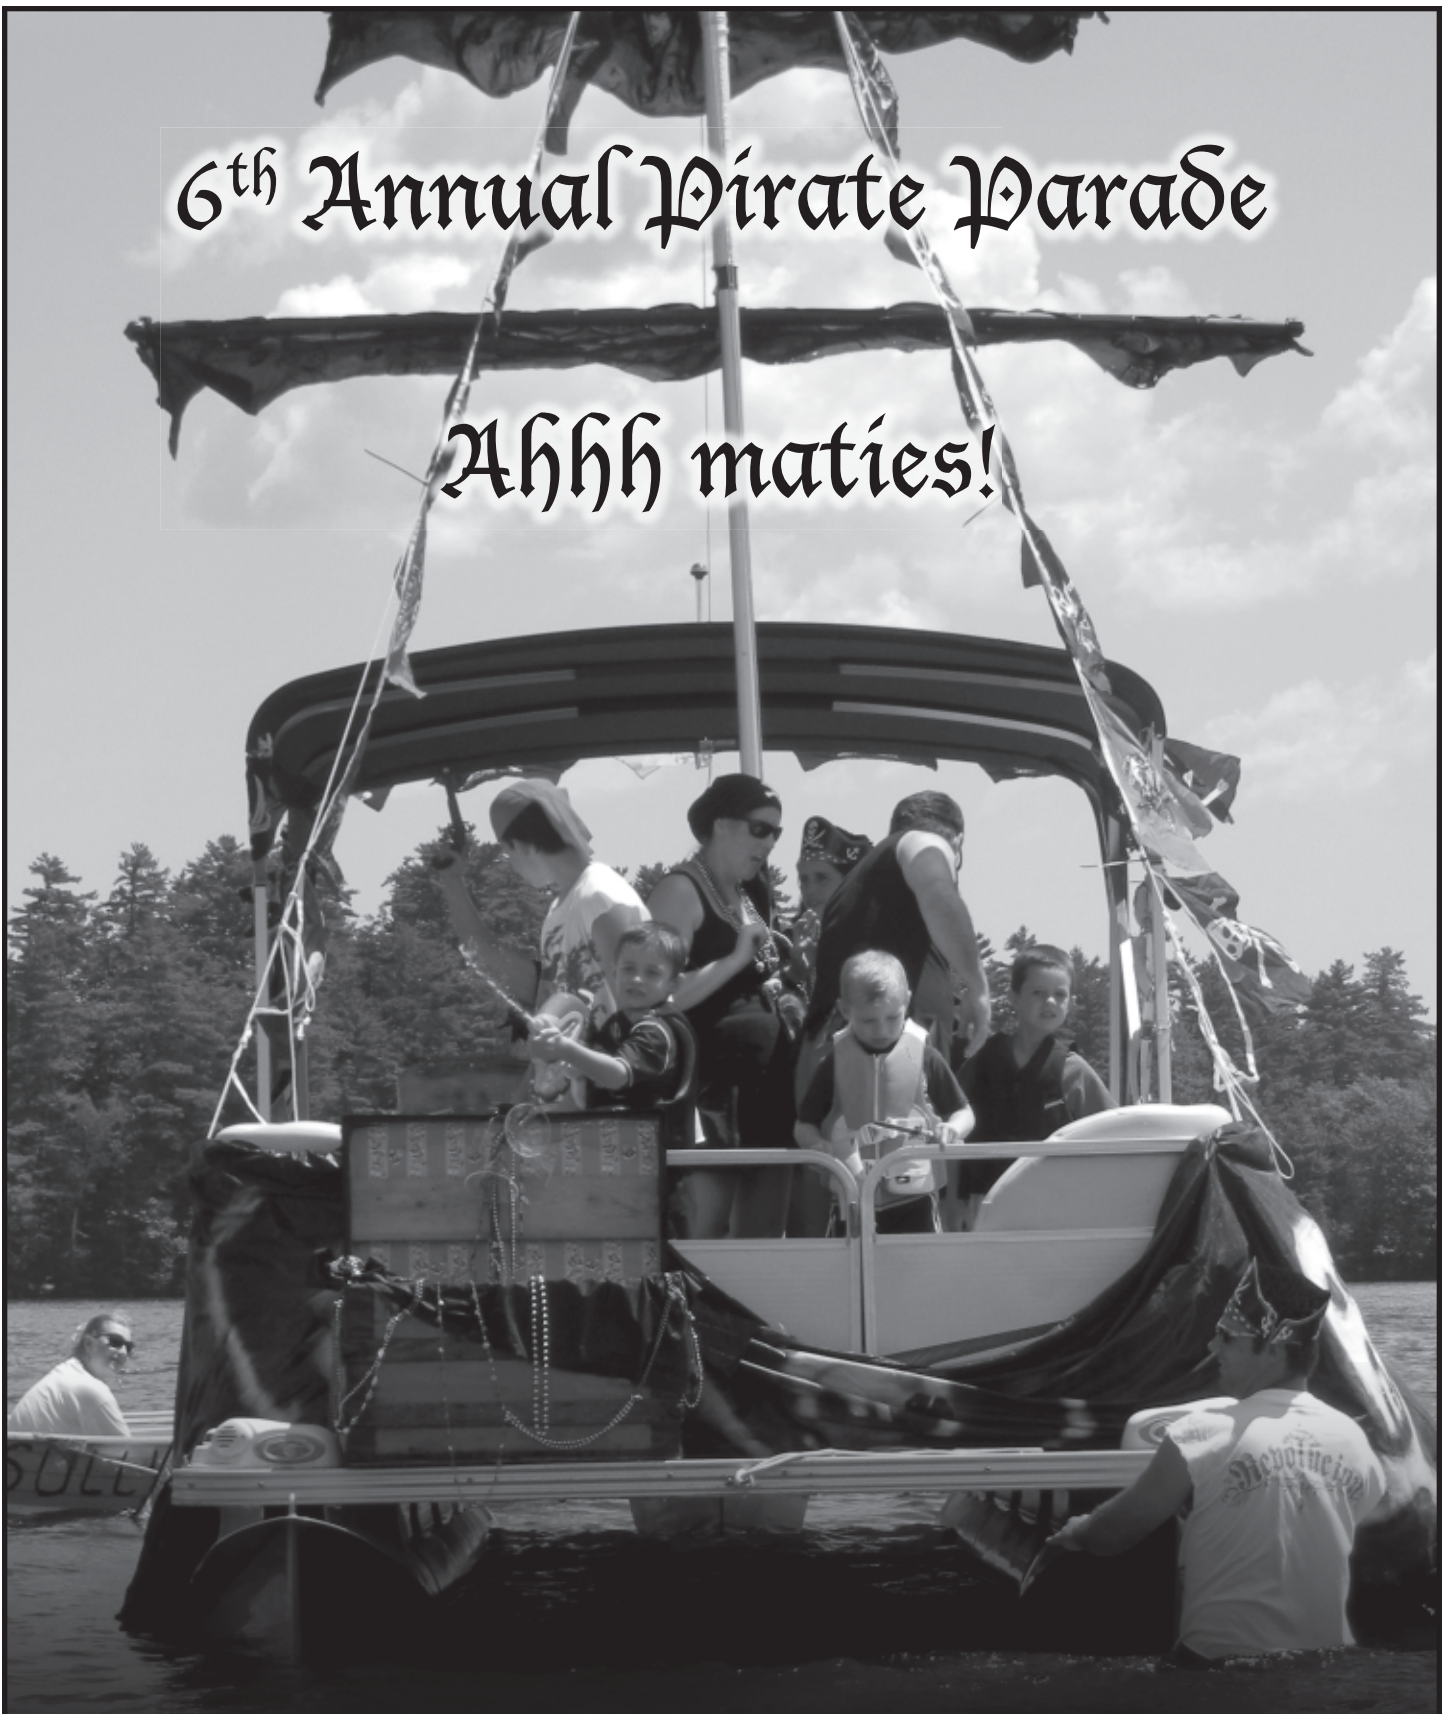

*This newsletter is being mailed to over 1100 members and yet only half paid their \$25.00 dues last year. If you reading this newsletter please consider paying your dues if you have not done so yet. You will be receiving a statement with some raffle tickets in a few weeks. Please remember that purchasing raffle tickets does not qualify as dues. Please consider paying your dues along with a tax deductible donation and purchasing some tickets as well.*

*This Board of Directors works very hard for you and we need your financial support to continue. Ask around – check with your neighbors – mention the association and the newsletter. If only 50% of our members are dues paying, that means that there is a very good chance that the neighbor on one side of you is not doing their share. Check with them. Ask them to please pay if they have not done so yet.*

# 6<sup>th</sup> Annual Pirate Parade

## Ahhh maties!

**P**repare your ship for a fun filled day July 21 for the Pirate Parade. It will begin at the Lower Basin and proceed to the Sand Bar prior to the Rock Narrows going to the Upper Basin. Join us there for water volley ball....for kids and the young at heart. Stay tuned for updated information on our website.

# "2012 LSLA FUND RAISER"

Help Raise Funds to Fight

MILFOIL

and win Great Prizes  
by sending in those Raffle Tickets

**TICKETS ARE  
\$10<sup>00</sup> EACH  
OR 3 FOR \$25<sup>00</sup>**

*Drawing to be held on Saturday, July 14, 2012 at  
"The Annual Meeting"*

**1st  
Prize**

Nelson & Small, Inc. have generously donated a Whirlpool Washing Machine (shown above-left).

**2nd  
Prize**

LSLA has provided a Waterquest 10' Kayak (shown above).

Prize**

LSLA has also provided the Coleman Gas Grill (shown above-right).

**Help our fund raising efforts by contacting us to purchase our raffle tickets, by calling 207-809-4706 or emailing us at [info@littlesebagolake.com](mailto:info@littlesebagolake.com)**

# ICE OUT' EARLIEST' EVER!

So where did winter go? The mildest ever and it rendered an early ice out. If you were part of the Facebook challenge you would know there were date several challenges. Bruce Micucci started it off offering a date of March 31<sup>st</sup> with Adam Folger agreeing with him. The rest of the players were Deb Karmlich –March 24<sup>th</sup>, Susan Marean-April 1<sup>st</sup>, Pam Wilkinson-April 5<sup>th</sup>, and Kevin Murphy-April 10<sup>th</sup>. We set the definition early as all ice out including coves opposed to the Stat's definition of being able to travel from one end of the lake to the other without ice interference. Eyes monitored daily from the north to south until the last bit of ice was gone on March 23<sup>rd</sup>! So.....Deb Kramlich is the Ice Out Queen. A special prize will be presented at the Annual Meeting July 14<sup>th</sup>.

# CCSWCD

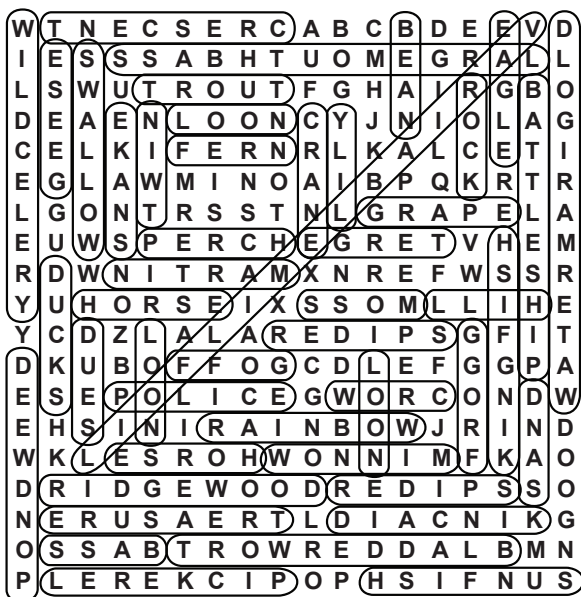

## Follow-Up Erosion Survey and End of Little Sebago Lake Conservation Project

The third and final phase of the Little Sebago Lake Conservation Project will be wrapping up this summer. In completing this project, a follow-up survey will be conducted to determine potential remaining sites for LSLA to focus on. This follow-up survey will be conducted from May through August. Volunteers will be reviewing sites originally identified in the 2002 and 2003 surveys. The surveys identified areas in which pollution (particularly erosion) was washing into the lake. A review will determine if these issues are still present. Since these surveys, over \$282,584.00 in grant funds have been leveraged to address 76 high priority sites!

This follow-up survey is a non-regulatory effort to gather information to protect and improve the water quality of Little Sebago Lake. Postcards will be mailed to all affected landowners. Please contact Heather True of Cumberland County Soil and Water Conservation District at 207-892-4700 or [htrue@cumberlandswcd.org](mailto:htrue@cumberlandswcd.org) if you are interested in helping out or would like more information. You can also learn more about this process at CCSWCD's website: [www.cumberlandswcd.org](http://www.cumberlandswcd.org).

Thank you for your help!
